

# RAMPVIS - 'Coherent Reporting' Meeting Plan - 210223

Cagatay, Aidan, Rita, Tom, Jason?

*Recommendations, from **Rogers et al. (2020)** - that we are ...*

## ABUNDANT

- where to put things?
- how to flag / label / annotate them?

## REFLEXIVE

*explicit and thoughtful self-awareness*

- structured notes before and after
- *reflect in action* - reflective memos
- *reflect on action* - revisiting experiences

## TRANSPARENT

- evidence and analysis
- 

## Reflective Design Study Research (Paper) Proposal

*Jason's Doc of 210205 ...*

## Suggestions Recommendations

- systematic reflective practices

## Things to Decide

1. how do we record? **tech plus process**
  2. individuals and anonymity, permission
- MEMOS - should contain, and be inspired by
    - **DIRECTION** - what changed, what shifted? *record pivots*
    - **REACTION** - what surprised?
    - **TRACTION** - what resonated?

# How to Record?

Possibilities include ...

## 1. Chronological Inline Narrative

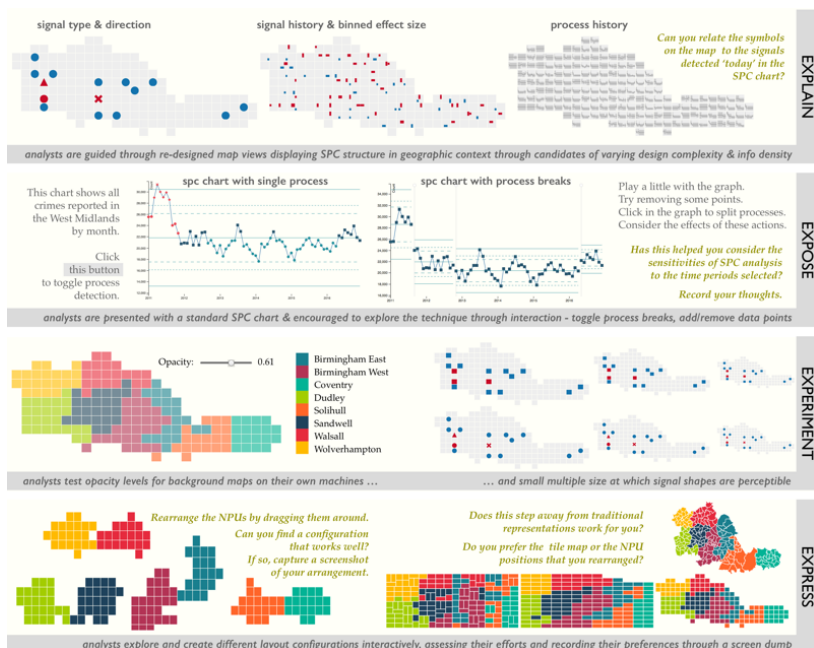

- e.g. Aidan's notes - <https://github.com/aidans/ramp/tree/main/notes>

## 2. DESIGN DISCOURSE

- Explicit questions - <https://gicentre.github.io/src/docs/flow/allScotland.html>

## 3. DExD Structure

- EXPLAIN* - guide collaborators through redesigns
- EXPOSE* - show limitations in current approach
- EXPERIMENT* - (EXPLORE) get analysts to play with alternatives and check preferences
- EXPRESS* - explicitly set or select preferences

## 4. litvis

- structured markdown documents with validation
- see [litvisExample.md](#) and associated yaml - [design.yml](#)
